Aleksei Pestov

UX Developer at The Regis Company
Denver Metropolitan Area

Summary

http://pestov.me (portfolio)

UX/UI specialist, successfully completed a diverse set of projects:
web-sites, html5-apps, mobile apps.
Able to cover whole design process: from defining requirements,
converting them to user flows and stories, to creating low/pixel-
perfect mockups and prototypes.

Always trying to understand how things work under the hood to make
designs happen.
Passionate to see design converting to a real product and always
willing to improve it in a long term.

Experience

The Regis Company
UX Developer
October 2019 - Present (1 year 4 months)
Golden, Colorado

Working on learning software in an industry-leading leadership development
company focused on human-centered design, smart technology, and
neuroscience.

At this position, I leverage and mix both of my design and developer skills to
work on a company Design System and products.

— Identifying functional and design patterns and extract them into reusable
components
— Collaborating cross-team to create the best possible UX
— Creating high-fidelity interactive functional prototypes with Design System
components
— Streamlining the process from design to development

Tech stack: ReactJS (ReactN, Immer), MUI, Git, Atlassian RBD, Nivo and Gatsby (Docz)

CQG, Inc.
Interaction Designer
December 2013 - October 2019 (5 years 11 months)
Greater Denver Area

— UX/UI role on trading web-app.
— PC Software: Flagship company product: support existing and create new functionality.

Covering executive part of application design:

— Creating static mockups.
— Detailed graphic specifications.
— Specifications documentation for developer teams.
— Interactive prototyping using low level tools (HTML/CSS/JS) and high level tools (Adobe XD, Principle, Hype).
— Working with user feedback and metrics gathered with Google Analytics.

Projects:

— http://mdemo.cqg.com (continuous UX/UI improvement)

http://cqg.com

Internetlab
Web Designer
May 2008 - December 2013 (5 years 8 months)
Samara, Russia

— Web-sites and web-apps design
— Advertise design

Projects:

— http://rfpl.org (Russian Football Premier League official web-site)
— http://spasiboclub.ru (hotel booking service — booking widget and administrator interfaces)
— Variety of customers: banks, online stores, hotels
